## About Me

It was much later in life when time, opportunity and desire all coincided to allow me to play music again and then to pursue a career as a songwriter. In the process of songwriting and promoting my songs, I was able to realise my passion to be a performer, an artist, and to learn and play various instruments. From December 2016 to now, I have learnt to record my own songs track-by-track, playing all the

instruments and singing all the vocals and harmonies. I made myself get on stage until I beat my nerves, I stepped out of my comfort zone attending festivals and entering competitions, and I developed a supportive network of musician friends and organisations. Now I'm jamming and love what I'm doing.

My motto: Follow your heart's desire, work hard and your dreams will unfold.
